

AP Chemistry

Advanced Placement (AP) courses and their instructional frameworks and curriculum are solely owned and endorsed by the College Board. The contents of these courses have not been reviewed or approved by the Georgia Department of Education. As with any curriculum, school districts should use a process for reviewing, approving, and adopting AP courses and instructional frameworks that engages students, parents, educators, and community stakeholders. Curricula and training should abide by state and local policies, including House Bill 1084 – which requires that the curriculum of exempted AP courses be implemented in a professionally and academically appropriate manner and without espousing personal political beliefs.
